

## 48304 to 48426—Continued.

48380. *PRIMULA SPHAEROCEPHALA* Balf. and Forr. Primulaceæ. Primrose.

"A 754."

A delicately perfumed primula from southwestern China, which bears small globular heads of attractive purplish flowers. (Adapted from *Bailey, Standard Cyclopædia of Horticulture, vol. 5, p. 2801.*)

48381. *PRIMULA VINCIFLORA* Franch. Primulaceæ. Primrose.

"A 760."

A perennial Chinese primula, discovered originally in the Province of Yunnan. The oblong leaves are sometimes  $3\frac{1}{2}$  inches in length, and the 7-flowered scape is about 2 inches long. The large vinelike purple flowers appear before the leaves in the wild state, but under cultivation both leaves and flowers appear at about the same time. (Adapted from *Curtis's Botanical Magazine, pl. 8547.*)

48382. *PRIMULA VITTATA* Bur. and Franch. Primulaceæ. Primrose.

"A 786. Forrest No. 15207."

A herbaceous perennial with long narrow leaves up to 6 inches in length. The purple flowers are borne on a stout scape about 8 inches long. This primrose is a native of Szechwan and Yunnan, China. (Adapted from *Curtis's Botanical Magazine, pl. 8586.*)

48383. *PRIMULA WARDII* Balf. f. Primulaceæ. Primrose.

"A 784. Forrest Nos. 14445 and 14945."

This is a valuable acquisition to horticulture, is one of the freest of growers and seeders, and is most floriferous. It is a foot or slightly more in height and is native to the mountains of Yunnan, China, where it inhabits damp meadows and pastures. The fragrant greenish yellow flowers are blue eyed. (Adapted from *Notes from the Royal Botanic Garden, Edinburgh, vol. 9, p. 59.*)

48384. *PRIMULA* sp. Primulaceæ. Primrose.

"A 788. Forrest No. 15344."

Received as *P. verringtonensis*, for which a place of publication has not been found.

48385. *PRIMULA* sp. Primulaceæ. Primrose.

"A 13."

48386. *PRIMULA* sp. Primulaceæ. Primrose.

"A 748. *P. nivalis* section."

48387. *PRIMULA* sp. Primulaceæ. Primrose.

"A 757. Related to *P. denticulata*; from Tali Range."

48388. *PRIMULA* sp. Primulaceæ. Primrose.

"A 758. Related to *P. bella*."

48389. *PRIMULA* sp. Primulaceæ. Primrose.

"A 759. A form related to *P. nivalis*; from the Lichiang Range."

48390. *PRIMULA* sp. Primulaceæ. Primrose.

"A 763. From Tali Range."

48391. *PRIMULA* sp. Primulaceæ. Primrose.

"A 764."
